

The Easiest, One Minute, Plug N Play ELD Installation

Gorilla Safety's equipment plugs quickly and easily into the diagnostic port on your vehicle - in seconds you're up and operating.

The Plug N Play equipment comes with an adapter cable to keep your diagnostic port open for easy access by your mechanic (and out of the way of the driver's legs). Our cables fit the following diagnostic ports:

**JBUS 6 Pin
Panel Port**

**JBUS 9 Pin
Panel Port**

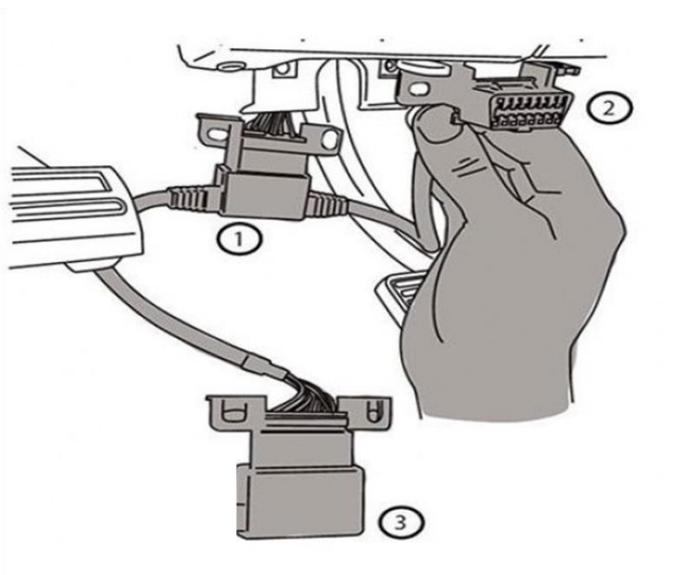

**JBUS 9 Pin
'Jam-Nut' Port**

**OBDII
16 Pin Port**

Installing the Bypass Cable

Installation is fast and easy.

- 1) Unscrew the Diagnostic Port side mounting bolts. Plug the Diagnostic Port into Plug N Play cable.
- 2) Mount the open adapter cable Diagnostic Port back where the original Diagnostic Port was removed.
- 3) Plug the Bluetooth ELD equipment into the adapter cable.

You're done!
